PROFESSIONAL EXPERIENCE

Frontend Developer
Banco de Bogotá| June 2023 - Present

- Modernized a legacy platform, migrating it to a modern tech stack with Angular and microfrontends using Single SPA to enhance modularity, scalability, and maintainability.
- Deployed and managed applications in the cloud using AWS services such as CloudFront, API Gateway, and Lambda.
- Facilitated smooth collaboration with backend and frontend teams, meeting project deadlines and aligning with Scrum methodology in sprint cycles.

Web Developer Analyst
Banco de Bogotá | august 2022 - june 2023

- Analyzed and developed requirements for internal platforms, handling backend technologies like Spring, Java, SQL databases, and PLSQL, along with frontend frameworks such as Angular, JSP, and HTML.
- Managed on-premise Oracle WebLogic servers, integrating various backend and frontend components to enhance platform functionality.

EDUCATION & CERTIFICATIONS

Platzi
Angular 17 Web Applications Development | february 2024

- Completed an advanced course on building Standalone and Server-Side Rendered (SSR) applications with Angular 17 through Platzi.

AWS Cloud Practitioner Certification | may 2024

- AWS-focused learning path aimed at certification readiness, covering foundational cloud principles and services.

Universidad Distrital
Electronic Engineering | january 2016 - december 2022

- Comprehensive engineering program with a focus on the impact and progression of technology in daily life and industry.
